

SHIVAM K. SHARMA

Core Developer | Java, Python

Ghaziabad (Delhi-NCR) | shivamsharma79005@gmail.com | +91 9389982912 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Passionate Core Developer skilled in Java, Python, Spring Boot, React.js, REST APIs, MySQL, and AI/ML technologies with hands-on experience in building scalable and secure web applications. Experienced in backend development, healthcare insurance systems, API integration, documentation, and cloud-based deployment. Control tools like Git and GitHub. Enthusiastic learner with a problem-solving mindset, strong teamwork abilities, and a passion for creating impactful real-world applications and innovative technology solutions.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript

Frameworks: Spring Boot, Django, Flask,

React.js

Databases: MySQL, PostgreSQL, MongoDB

Web & APIs: REST APIs, Microservices, Swagger, Postman

Tools: Git, GitHub, Docker, AWS

Core Concepts: OOP, DSA, DBMS, OS, Software Engineering

PROFESSIONAL SKILLS

- Problem Solving & Analytical Thinking
- Team Collaboration & Leadership
- Quick Learning & Adaptability
- Communication Skills & Project Ownership

EXPERIENCE

Software Development Intern – Deep Minds Technologies, LLC (Remote) (Feb 2025 – Jul 2025)

- Developed RESTful APIs using Java for healthcare insurance systems.
- Developed scalable RESTful APIs using Java and Spring Boot for healthcare insurance and preventive healthcare management systems.
- Designed and implemented backend modules to manage healthcare workflows, policy operations, and secure data processing.
- Created detailed API documentation using Swagger/Open API and performed API testing, validation, and debugging with Postman.

AI/ML Trainee – NVIDIA DGX-A100 (Oct 2024 – Jan 2025)

- Worked on Docker, Kubeflow, and AI model deployment.
- Built projects including face recognition and document fusion.
- Built projects including multi-person face recognition, document fusion, and custom AI model training solutions.
- Implemented data preprocessing, model evaluation, and performance optimization techniques for improved accuracy and efficiency.

PROJECTS

Mind Matrix – AI-Based Mental Wellness Platform [GitHub](#)

- Developed REST APIs using Flask and Python.
- Implemented mood tracking and Swagger documentation.
- Built responsive frontend and database integration.

3D Portfolio Website [GitHub](#)

- Developed interactive portfolio using **React.js** and **Three.js**.
- Integrated dynamic project showcase sections with optimized performance and interactive 3D elements.
- Designed reusable frontend components and maintained clean, scalable code architecture for better maintainability.
- Utilized Git and GitHub for version control, project management, and collaborative development workflows.

Telematics-Driver-System [GitHub](#)

- Real-time fleet monitoring system with live **GPS tracking**, **driver behavior analysis**, and vehicle telematics intelligence
- Architected and developed a full-stack real-time telematics platform using Java 17, Spring Boot, and WebSocket's to monitor live vehicle location, driver behavior, fuel consumption, and critical alerts.
- Designed and implemented secure RESTful APIs with **Spring Security + JWT authentication** and multi-factor email verification using JavaMailSender (SMTP) for OTP-based user onboarding.

EDUCATION

B. Tech – Computer Science & Engineering (AI)

ABES Institute of Technology, Ghaziabad, AKTU (Aug 2022- May2026)

CGPA: 7.23 / 10

Class XII – Uttar Pradesh Board | 76%

Class X – Uttar Pradesh Board | 84.89%
